

FAQ's

Q: Why is a roundabout being built?

A: The intersection experiences a high rate of angle/turning crashes resulting in severe personal injuries. The roundabout will reduce the potential for these types of crashes.

Q: What is the project schedule?

A: Construction begins late April 2017 and is expected to be completed around mid August 2017 weather dependent.

Q: Will there be any road closures?

A: The intersection will be fully closed from late May to mid August. A detour route will be implemented during this time.

Q: What is the cost of the Charles Road and Raffel Road Improvement?

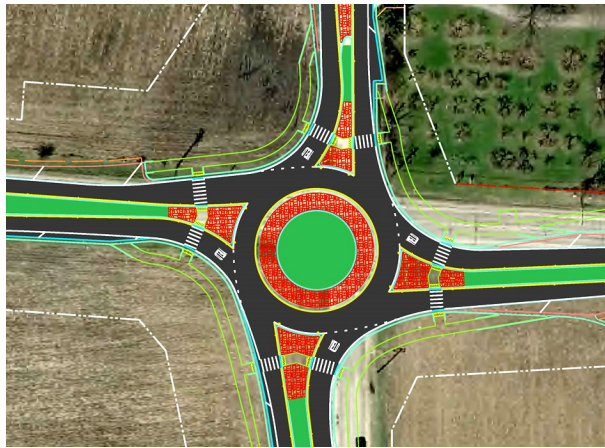

A: The cost is approximately \$2.2 million.

Q: How do I find out what is going on during construction?

A: Visit www.MchenryCountyDOT.org or connect with us on Facebook.

Q: Will the roundabout accommodate farm equipment?

A: Yes. The roundabout is designed to accommodate all vehicle types including buses, trucks and farm equipment.

CHARLES ROAD AT RAFFEL ROAD ROUNABOUT

Project Description:

The project will consist of the construction of a single lane modern roundabout at the Charles Road at Raffel Road intersection and is scheduled to start late April 2017.

The intersection will be fully closed from late May 2017 to mid August 2017. A detour will be in place. (see detour route above)

The completed roundabout project will improve the safety for the motoring public and accommodate all vehicles including buses, trucks and farm equipment.

Schedule:

Stage 1. Work consists of earth excavation and drainage work. One lane in each direction will be maintained through the work zone from late April to late May.

Stage 2. Work consists of constructing the roundabout, remaining drainage, signs, paving, pavement marking and landscaping. Full closure of intersection from late May to mid August is planned.

The project schedule is weather dependent.
